

BEAUTIFUL GOODBYE

I've always said / I've always known / I was born to give it all but I was into this
world alone

I've never believed in miracles / Sometimes I wish I did / Thought it might be
easier to follow that golden road

chorus

Why does it matter / Damn I let you go / Remember the wreckage / Damn we lost
control / How could we change it / And still be satisfied / I think we should call it /
The most beautiful goodbye

I took my chance / Placed all my bets / I guess you make a choice and if you fail
you wanna try again

But who made these rules? / Who says you've changed? / Cause I'm no fool to
spend my life living in your twisted games
