

## **SAY IT TO ME**

I get a feeling there's something more / In the way that you say my name / And  
I'm hoping you feel the same / When I'm with you that's all I need / Is it obvious  
when I smile / That I've felt this thing for a while

Oh oh

*Hey babe / If you feel the same*

*Won't you say it to me?*

*Don't you / Wanna be more than friends*

*Baby, say it to me*

No, ya no se como ocultar / Que te quiero hoy más que ayer / En mis ojos lo  
puedes ver

Oh oh

Oh come on, it's just a little fun / Just a little rock or we could slow down if you  
wanna

Don't really care, let them say what they say / It's OK, give me that anyway, say it  
to me everyday

Dimelo, si o no, sienteslo electrico / Que entre tu y yo baby I want you so  
Press play, let's go all the way / Cause I know you know what I want you to say
